WEEKLY MARKET LETTER.

Interesting Stock News From Our Regular Correspondent.

Special to Jasper News.

Kansas City, Mo., Tuesday, April 19, 1904. Nearly everybody in the cattle trade here was struck dumb on reading the report from Chicago yesterday morning, which said, "40,000 cattle, 15 to 25 cents lower." 6500 head were received here, which was not excessive. Proportion of beef steers was large, and concession of 10 or 15 cents were made on most of the steer receipts yesterday. Other kinds, including she staff, stockers and feeders sold steady. Today the supply here is 13,000 head, about the same as last Tuesday, and market is steady with yesterday, and practically the same as on last Tuesday. Prices advanced the latter half of last week on steers, and the loss of yesterday just about wiped out the gain of last week. Top prices today are \$5.25, same as last Tuesday. Butcher, as usual at this season, holds up well in price. Heavy cows sell up to \$4.15, heifers to \$4.45. Outside orders for cattle in this class are becoming more numerous each week, as small packing concerns are springing up all over the country. Stockers and feeders are more active this week, and the choicest sell up to \$1.50, with medium grades at \$1.30 to \$1.50. Feeders bulls and butcher weight bulls sell strong, but export weights are slow. Veal calves steady at \$5.00 to \$5.75.

Hog prices are descending as receipts are mounting upward. 15 cents represents the loss since last Tuesday, top today being \$5.95, bulk of all sales \$4.75 to \$4.90. This is the low point since the decline began in February. Receipts here today 14,000 head, 3000 more than last Tuesday, and liberal receipts were received elsewhere. Quality has not been as good past week, including more half fat light weights, indicating a dislike on the part of feeders of buying high priced corn.

Contrary to the hog situation, sheep and lamb prices are climbing as receipts are falling off. Smaller runs are expected for some time, and as market for the dressed mutton is excellent at all consuming points, both here and in Europe, packers are keen competitors for all the stuff that is coming. Lambs sold today at \$3.35, ewes bring up to \$3.25, wethers up to \$3.75.

Live Stock Correspondent.

The Oakton Creamery.

W. R. Banks in a communication in the Lamar Democrat says: I notice that the Oakton people will soon have their creamery in operation. Very few people realize what an important item the dairy products are in the agricultural revenues of this country. Last year the dairy products in the United States reached the enormous value of 472 millions of dollars. They stood third in the list of farm products. Corn came first at 800 millions of dollars and hay and forage second at 482 millions. The board of trade, at Elgin, Illinois, sets the price of dairy products, for the entire country, yet that city handles but 10 millions dollars worth of the country's half billion dollar production.

A Thoughtful Man.

M. M. Austin of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Webb Bros.

Recess

5 p. m. Social and entertainment.

MAY SWING MATTHEWS,
County Pres.

A Great Public Benefit.

County Superintendent of Schools, Hardaway, said to a reporter the other day: "Wherever I go I find in all parts of the county that the teachers are talking about the Approved Summer School which is to be held in Webb City the coming summer. The greater majority of the rural teachers are arranging to attend. Many are soliciting their friends in adjoining counties to take advantage of this nearby opportunity. I must say that I have been pleased with the attitude of the teachers towards this enterprise, because I regard it as a great public benefit to have a well equipped training School established at a point so convenient as Webb City for all Southwest Missouri. It is very gratifying also to learn that the State Superintendent of Kansas has agreed to accept grades made at the Webb City Normal, as the basis for state certificate in Kansas, and I have no doubt, now that he has taken the lead, that the superintendents of the various counties in southeast Kansas will also enter into the same arrangement."—Joplin Herald.

Salt! Salt!

Just received a carload of Salt. We have it in barrels and 75 and 50 pound sacks.

J. McCaslin.

Best Cough Medicine For Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all these conditions. There is nothing so good for coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by Webb Bros.

Excursion Rates For The Summer Normal.

Special reduced rates have been graded for the Approved Summer School which opens at Webb City on the 23d of May. This will be good news to the teachers and advanced pupils of Southwest Missouri, who have been making their plans to attend. This will be a rare and profitable opportunity in Southwest Missouri, Arkansas, Oklahoma and Indian Territory, on the certificate plan. This is also a gratifying recognition of the Approved Summer School as a portable public school, and the fact that these rates are so low is a gratification to all who are interested in the welfare of the Western Passenger Association of Chicago, and Southwest Excursion Bureau of St. Louis. These rates will afford all necessary facilities for a big rally of teachers in Webb City, next month.

Letter List.

Up of correspondence is remaining in the office, awaiting for the week ending April 21, 1904.
